A detailed description of the internal structure of the sections of the scientific article is as follows. If the article is devoted to theoretical research, then the section "Methods" will be replaced by "Theoretical Basis". The Introduction, Methods, Conclusions, and Discussion sections of the article are called the Article Body. The author should focus on the main part of the article!

The subject is capitalized and written in the middle of the page, in the next lines the full name of the author (s) (in English on the passport), place of work and e-mail of the first author (E-mail).

Table 2. Formatting of Sections, subsections and small subsections.

	Font size	Interval	Numbering
Section	12, Arial bold	6 mm before 3 mm after	1, 2, 3, ...
Subsection	10, Arial bold	6 mm before 3 mm after	1.1, 1.2, 1.3, ...

3 Equations and mathematics

Equations should be centered and numbered on the right side.

$$T_s(l,t) = T_g(l,t) \tag{1}$$

$$T_s(l,t) = T_g(l,t) T_b(x \rightarrow -\beta, t) = 0 \tag{2}$$

For variables use (*u*) in italic and bold (**u**) for vectors. There should be an order for brackets $\{[()]\}$, except where brackets have special significance.

The acknowledgements should be typed in 9-font size Times, without title .

List of literature

If possible, online references shall be linked to their original source. To enable this linking extra care should be taken when preparing reference lists.
